AEG - Founded in Germany over a century ago on a simple philosophy: everything it designs should be perfect in both form and function. Today, all AEG products remain true to these same Germanic principles. Premium form married to pioneering function. The AEG built-in range has been created with premium kitchens in mind, with design that enhances the overall look of the kitchen, together with the latest, high-performance technology to meet the most uncompromising standards.

AEG products have high performance design built-in, receiving several design awards.

**SOFTform**  
by nolte küchen

The linear look, uninterrupted by handles, complements the horizontal lines of the pull-out units and is continued into the side cabinets and equipment cupboards. Matrix Line 150 is an intelligent kitchen - for lovers of good design!

**MATRIX Line 150**  
by nolte küchen

Color Line - brings a fresh breeze into everyday routine.

High-capacity pull-out with a load-bearing capacity of up to 80 kg.

GLAS TEC offers the perfection of all-glass fronts in four distinctive colours, which allow you to create a variety of designs that are as cool as they are elegant.

GlassLine is the name of the new side extension made from transparent glass which enhances the inside of drawers and pull-outs even more.

Skill and design are the central points of the uniqueness that distinguish Nardi Elettrodomestici. This uniqueness allows the company to offer a wide range of products that can meet any consumer need.

Efficiency, reliability and design.

In a word, uniqueness.

Since 1958, our task has been to make life simpler for people, with state-of-the-art products.
